Welcome to **Raise Institute of Science & Technology**, and thank you for taking the time to learn more about us. Here you will find exceptional experiences that allow you to grow and develop, explore new interests, and fully realize your potential.

Producing career-ready graduates has always been central to our mission. Through a process that includes career exploration and professional preparation, we connect you with career paths and foster the skills and mindset needed for professional advancement. When you walk across the stage as a graduating senior at commencement, you will have more than just a degree from RIST Education Limited-UK. You will have career direction and the confidence needed for success in your chosen field.

Lastly, here you will find the guidance and support to develop your leadership skills, explore your passion for your relevant field, serve our community, conduct your own research, or pursue a career-defining internship. You will find mentors in our faculty, staff, and coaches, and, through our campus' rich social and cultural life, you will make connections and friendships that will last a lifetime.

Our website (www.rist-education.com) contains many resources for you to learn about **Raise Institute of Science & Technology**, I encourage you to visit our beautiful campus, meet our students and faculty, and see for yourself the outstanding opportunities, activities, and facilities that **Raise Institute of Science & Technology** offers.

With best wishes

VISION, MISSION AND OBJECTIVES

VISION

To be a globally recognized, delivering quality education and research excellence with strong commitment to enhance socio-economic development for sustainable society. **Raise Institute of Science & Technology** respects the infinite worth of every individual and graduates persons of ability and conviction who draw upon their education and faith to lead principled, productive, and compassionate lives that improve the human condition.

LEARNING

COMMUNICATION

Learning, because high academic expectations in an environment combining liberal arts and professional preparation equip graduates to live healthy, productive, and principled lives.

Faith, because our diverse faiths call us to make the world a kinder and better place, establish justice, build peace amid strife, and model lives of selfless love.

Service, because committing self in service to others connects faith with action and abilities with convictions;

Integrity, because honesty and trust are the foundations of teaching and learning, enriching, enduring relationships, and strong communities;

Diversity, because understanding differences develops respect for ethnic, cultural, and religious pluralism;

An international consciousness; and an appreciation for the infinite worth of every person; and Community, because a positive community sharpens self-identity, promotes acceptance of the demands of responsible citizenship, and transforms conflict into mutual respect.

The VISION of **Raise Institute of Science & Technology** is to educate inspire and transform knowledge through education research innovation to improve quality of life.

To be the best teaching institution, having a transformative impact on society and acting as a knowledge corridor between Azad Jammu & Kashmir, Pakistan, UK, and rest of the World.

Clear and Transparent Merit;

Outreach and Community-building;

Transparency and Accountability;

Support to poor and deserving students;

Leadership and Managerial skills Development;

Personalized and person-focused Education;

MISSION

Raise Institute of Science & Technology is committed to all-encompassing growth of its students, besides enabling them to tap the world of knowledge and assume leadership role in the future through a process of continual innovation in education, research, creativity, technological advancement and entrepreneurship

To provide education of the highest academic quality, rigorous in its demands and distinctive in its character;

To promote the advancement of society through research, creative activity, scholarly inquiry and the development of new knowledge;

To achieve academic excellence across a broad range of disciplines through continuous innovation, improvement, and expansion;

To make a center for intellectually demanding education that nurtures independence of mind and critical inquiry, as well as enables students to realize their personal ambitions and contribute to the development of society.

To produce the next generation of professionals to the high standard of ethical and moral values, which will make them better human beings too.

To proactively expand academic networking at the national and international levels

To provide continues support to societies interests, concerns, priorities, and aspirations

OBJECTIVES

To offer training in science and technology, technical education and other training.

To formulate plans for the promotion, technological development and improvement of the quality of education and training being offered to students and other stakeholders.

To promote and encourage innovation, initiative and readiness amongst staff and students in their fields of specialization and study.

To collaborate with other institutions nationally and internationally in the initiation, promotion and conduct of technical education, science and technology Programmes.

To carry out any other assignments given by the government through its various organs.

It gives me immense pleasure to extend my heartiest felicitation to the Management, Faculty and students of the **Raise Institute of Science & Technology** for bringing up the prospectus for the year 2022-23. It is indeed a matter of great satisfaction that it has become able to attract more than one thousand (1000) students since its establishment in 2020.

It is an extreme honor and privilege for me to welcome you to **Raise Institute of Science & Technology** one of the premier and prestigious institution of Azad Kashmir Pakistan where excellence in medical education is nurtured and pursued. I pride myself for being committed, appreciative, respectful and excellent.

Our vision & values are Care, Compassion, Competence, Communication, Courage & Commitment & these are integral part of our training & education to provide & maintain high standards for everyone.

Our mission is to seek the highest challenges both students and staff members to rise to their potentials, identify their strengths and direct to acquire much needed lifelong learning skills for academic and social pursuits.

It's a great pleasure & pride moment while sharing my heartfelt views and feelings with teachers, staff and students of Raise Institute of Science & Technology after joining it as Executive Director. As head of this Institute, it is a grand opportunity for me to devote my capabilities to play a role of mentor and to enrich my students with theoretical knowledge and practical skills, enabling them to serve the community with ability, sincerity and commitment.

Professor Dr. Iftikhar Butt has recently retired as a Dean faculty of management sciences from “University of Kotli”.

He also performed visiting lecturer's duty in Common Wealth College, Luton, United Kingdom and Luton International College, Luton United Kingdom. He got his Doctor of Philosophy (PhD) degree in Human Resource Management (HRM) from University of West London and International Diploma in English Language from Common Wealth College, Luton, United Kingdom.

Professor Dr. Iftikhar Butt

There is no dearth of medical institutions in Pakistan. However, space for an institution embarked with the mission to produce quality medical professionals, proud of Islamic ethics and traditions has rightly been filled by fastly growing **Raise Institute of Science & Technology** Kotli Azad Kashmir Pakistan. I am also grateful and appreciate the services of all our teachers and faculty members who have given enormous services in the development of this institution.

I pray for the success of students and developing **Raise Institute of Science & Technology** which added dentistry, pharmacy, physiotherapy & allied specialties in near future.

Mr. Shuja Rehman

Teaching Hospital Facility

VISION

Raise Institute of Science & Technology will be providing Academic and Clinical facilities to local & International communities.

To transform your dreams into reality, the next revolution is never far away. This is a place where education is a force for positive change.

To provide international standard health care facilities at door steps.

Introducing Telemedicine Hub first time in AJK. Tele-consultations between doctor and patient, both at different locations. The emphasis is on Patient-Doctor engagement and creating an experience similar to an in-person appointment.

To produce highly skilled pharmacy professionals, with the knowledge of drug discovery and development at par & to postulate the standard health care services to the Nation.

MISSION

We are here because you have a dream: to advance or change your career, to immerse yourself in a subject you love, to meet future mentors, colleagues and friends. At Raise Institute of Science & Technology, you'll find an incredible range of opportunities to take these next steps. You will see your dreams take shape and become real.

Our aim is to produce graduates of high Caliber distinguished for their depth of knowledge, professional competence, knack and energy to put their knowledge to practical applications, the best human being and the best professional.

They are to become enlightened moderate individuals exhibiting attributes of positivism, tolerance and optimism, capable of responding to modern Challenges and tackling problems with courage and determination. Graduates are imbued with moral courage, freedom of thought, perseverance and to serve their community & country with dedication.

Despite all the daily challenges that we face we still need to create a patient-centered culture. Putting patients first is the underlying principle. These little things if are into place make an actual impact on the patient's experience and care. When you take them all together they begin to change the culture and even though they may not have a huge impact on the macro system, but even for one person they may make a difference.

Being an International organization are well experienced in providing public & humanitarian services. We have completed several projects to improve the educational standards of every human being.

Equality, inclusion, diversity and human rights provide a foundation for a modern and forward looking profession where nurses, health care support workers, and students, regardless of the sector that they work in or their field of practice, can continue to transform their working environments and the care they deliver to patients.

This new equality and inclusion strategy will enable us to scope, plan and begin delivery in new priority areas that will become increasingly important for our members in the coming years and beyond. Nursing staff work in diverse settings - in hospitals, communities, the workplace and the classroom- and use their expertise to adapt their skills to offer the best care and support to their patients.

GAMES AND SPORTS

Sport pertains to any form of competitive physical activity or game that aims to use, maintain or improve physical ability and skills while providing enjoyment to participants and, in some cases, entertainment to spectators. RIST Education Limited UK also has sports facilities that include football grounds, volleyball, tennis, netball, and basketball and badminton courts. Students are therefore encouraged to participate in athletics, jogging, table tennis, football, basketball, netball and badminton. Therefore, our institute is affiliated with Kotli sports complex and Degree College for sports activities.

CO-CURRICULAR ACTIVITIES

Co-curricular activities play very important role in grooming personality of the students, enhancing their communicational skills and increasing their confidence. Students' Affairs organizes these activities throughout the academic year.

These co-curricular activities include:
LITERARY/ DEBATING SOCIETY

Literature is artistic aspect of life which provides insight into various Cultural dimensions. In order to promote talent and develop the personality of the students a “Literary/Debating Society” has been established in the Directorate of Students' Affairs to provide a forum to the students to give vent to their views, perceptions and experiences. The selection of the office bearers is purely made on merit. Keeping in view the performance of the students and the recommendations of the departments, the Directorate of Students' Affairs selects the best students for Debating Society at main campus.

CULTURAL SOCIETY

Dramatic activities help develop understanding of various dimensions of culture. To sensitize students to what is happening around them; Environment Society has been set up.

MEDIA CLUB

Keeping in view the growing importance of media, a Media Club has been established. This Club aims to foster objectivity to react to media on spot and provide a forum where students can share their views and ideas on the developments taking place around the globe.

SEERAT SOCIETY

Seerat society is an Islamic society established to implant Islamic values in the young minds of the students. Seerat society is organized by Directorate of Students Affairs. Seerat society arranges for many events to implant better understandings of Islam in young minds. Seerat society also invites mashaikh, and learned scholars for the benefit of the students. This society openly distribute Hadiths and Quranic verses.

CAFETERIA

At an age where students are forming their dietary preferences and habits, the cafeteria has the ability to promote healthy food habits, therefore it is important to make sure that the healthy choice is always the easy choice. RIST Education limited UK has a cafeteria, cozy and hygiene environment with fresh healthy food.
